Attend the Premier Ophthalmic Coding Course - Codequest

Stay up-to-date on the most important ophthalmic coding topics by attending the American Academy of Ophthalmology Codequest in-person coding seminar. In just four hours, you will learn how to code for the highest allowable reimbursement, code ICD-10-CM accurately, reduce audit triggers and avoid costly penalties and denials.

Best of all, Codequest is ophthalmology-specific and state-specific to focus on the coding information you need most, and costs a fraction of what the course registration fees are throughout the country.

Get Accurate, Up-to-Date Coding Information

Taught by experts with years of ophthalmic experience, Codequest 2016 will cover:

- Significant updates for 2016 coding
- Top ICD-10 claim denials
- Coding and documentation rules and requirements
- Solutions to challenging coding problems
- Payers' policies and strategies to reduce claim denials
- Examples of coding best practices
- 2016 PQRS updates and reporting options
- Customized answers to your questions from the Academy's coding experts
